MULCHER FOR SKID-STEER

BRD 50

Functions of the mulcher BRD 50

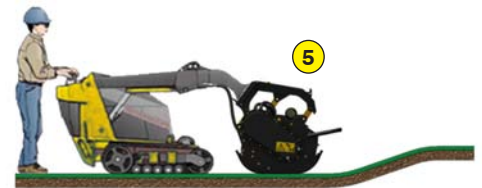

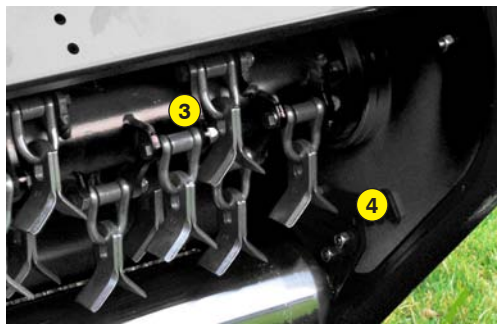

This mulcher was designed to grind dense herbs and brambles. It achieves a very high performance thanks to the floating system (Rotadairon® Patent) which allows to follow perfectly and automatically the unevenness of the ground. It is equipped with a device that complies with the regulations in force (EN12733) allowing the machine to be stopped quickly: as soon as the operator releases the controls and the machine ceases to be supplied with oil, our system brakes and stops the rotor in less than 7 seconds. The Y-mounting of knives on shackles contributes to a better grinding.

Quality of service

A large stock of spare parts is permanently maintained at our factory. Our partners have online tools and quick access to manufacturer information. Maintain the quality and performance of your Rotadairon® by using only original parts.

- 1 Safety hydraulic block
- 2 Cartridge filtration
- 3 Y-shaped mounting of knives on shackles
- 4 Roller adjustment for working height
- 5 Floating field following system
- 6 Rear splash guard
- 7 Forward push bar

Machine	BRD 50
Working width	1270 mm (50")
Total width	1440 mm (56" 3/4)
Weight	276 Kg (608 lb)
Carrier : Hydraulic flow	40 to 60 l/min (10,5 to 15,8 us gpm)
Carrier : Pressure	200 Bars (2900 PSI)
Carrier : Maximum track width	1.27 meters (50")
Working height	30 to 70 mm (1" 1/4 to 2" 3/4)
Rotor outer diameter	360 mm (14" 1/4)
Depth adjustment	Adjustable skids 3 positions
Number of knives	76
Number of shackles	38
Hitch plate	Toro / Ditch Witch / Vermeer conventional quick coupler system or equivalent
Forward speed of the carrier	0,8 to 1,5 Km/h (0.5 to 0.9 mph)
Transmission	Hydraulic motor + Chain in oil bath
Security	Hydraulic safety block
Transport dimension w x L x H"	1440 mm x 950 mm x 690 mm (56" 3/4 x 37" 1/2 x 27" 1/4)
