SEEDCAR

Functions of the seeder SEEDCAR

The Rotadairon® SEEDCAR is a manual seeding machine designed for seeding all types of grass (bluegrass, red fescue or ray-grass). This gravity seeder is equipped with a graduated sector flow adjustment. For working comfort, the opening/ closing of the seeding is done from the handlebars. It also makes it possible to gear up and roll up all the «corners» of narrow or difficult access grounds.

The metal mesh roller, at the front, wafts the soil. Then the seed drill deposits the seeds. Finally the smooth rear roller, ideally compacts the soil to obtain a good germination and avoid the marking of the steps of the user.

Quality of service

A large stock of spare parts is permanently maintained at our factory. Our partners have online tools and quick access to manufacturer information. Maintain the quality and performance of your Rotadairon® by using only original parts.

- 1 Seed level indicator
- 2 Seed flow adjustment
- 3 Seed Depot Calibration Auger
- 4 Quick adjustment of handlebar height
- 5 Stainless steel gravity seeder
- 6 Quick opening / closing system by guillotine, without flow change
- 7 Option : Seed dibbler
- 8 Option : Additional mass

Machine	SEEDCAR
Seeding width	700 mm (27" 1/2)
Total width	840 mm (33")
Front roller type	Metal mesh
Front roller diameter	220 mm (8" 1/2)
Rear roller type	Stainless steel smooth
Rear roller diameter	200 mm (7" 3/4)
Weight	51 Kg (112,4 lb)
Transport dimension w x L x H	860 mm x 850 mm x 1085 mm (33" 7/8 x 33" 1/2 x 42" 3/4)
Seeder	
Type of seed drill	Stainless steel gravity seed drill
Seed rate adjustment	Adjustment dial 0 to 6
Seed rate calibration	Calibration bucket
Seed drill capacity	55 liters (14,5 US gal)
Options	- Seed dibbler - Additional mass : 15 or 22 Kg (33 or 48.5 lb)
