Functions of the Primo 55 self-propelled weeder

The StabNet PRIMO 55 is a simple, economical stand-alone mechanical weedkiller. The machine can be used for both curative and maintenance weeding.

It works in BOTH forward and reverse gears and has a tilt function, making it highly productive.

It is fitted with rotating rollers to protect street furniture.

It can also be used for levelling, decompacting and reprofiling driveways.

The machine is available in a thermal or electric version (PRIMO 55 E).

Quality of service

A large stock of spare parts is permanently maintained at our factory. Our partners have online tools and quick access to manufacturer information. Maintain the quality and performance of your Rotadairon® by using only original parts.
