TRACTOR-MOUNTED MECHANICAL WEEDERS

Functions of the StabNet 160T tractor-mounted mechanical weeders

The StabNet 160T is a multifunctional mechanical weeder.
The machine can be used for maintenance or curative weeding at high output.
It works in BOTH forward and reverse and has a tilt function, making it highly productive.
The machine can also be used for levelling operations, decompacting and reprofiling driveways.

Quality of service ⚙️

A large stock of spare parts is permanently maintained at our factory. Our partners have online tools and quick access to manufacturer information. Maintain the quality and performance of your Rotadairon® by using only.

Go pesticide-free with STABNET – our patented mechanical weed control solutions combine effectiveness with respect for the environment.
